**HIGHWAY PROGRAM SUMMARY  
ILLINOIS DEPARTMENT OF TRANSPORTATION  
DISTRICT 4, PEORIA**

**Overview**

Highway District 4 encompasses nine counties in west central Illinois and includes the cities of Peoria, Canton, Chillicothe, Galesburg, Macomb, Monmouth and Pekin, plus many smaller communities which serve as satellites for the larger employment areas or as focal points of this farming area. The state highway system in District 4 consists of 1,405 miles of highways and 599 bridges, supporting 8.4 million vehicle miles of travel daily.

**State Program**

The program for state and local highways will average \$1.186 billion annually for the FY 2005-2011 period. Approximately \$602 million will be provided during FY 2005-2011 for improvements to state highways in District 4. The following table summarizes anticipated accomplishments on the state highway system in District 4 during this time frame.

**FY 2005-2011 Accomplishments**

Interstate Rehabilitation (miles)	26
Interstate Bridges (number)	29
Other Bridge Rehab/Replace (number)	61
Resurfacing/Widening (miles)	114
Major Highway Construction (miles)	20
Traffic/Safety Improvements (locations)	100

Major projects of interest that are tentatively scheduled during the FY 2005-2011 time frame include:

- **Interstate 74 from Sterling Avenue in Peoria to Washington Street in East Peoria.** Interstate 74 through Peoria was constructed in the late 1950s to early 1960s and does not meet current interstate standards. Reconstruction and modernization of 8.3 miles are estimated to cost \$477 million, the largest downstate interstate modernization project ever undertaken by Illinois. Approximately \$196 million of work has been completed or is under way. An additional \$43 million of work remains in the FY 2004 program. Projects to finish the reconstruction and modernization are programmed during FY 2005-2011 at a cost of \$237.7 million. Of this total, preliminary work and reconstruction are programmed in FY 2005 at a cost of \$158.5 million, including 3.6 miles of reconstruction, bridge replacements, interchange reconstruction, retaining wall and construction engineering from Gale Avenue to the Illinois River in Peoria for \$115.4 million. Also in FY 2005, there are 1.3 miles of reconstruction, bridge replacement, interchange reconstruction, retaining wall and construction engineering eastbound from the TP&W Railroad to east of Washington Street in East Peoria for \$29.8 million.
- **US 67 from US 136 to Illinois 101.** Engineering for contract plans for the US 67 interchange at US 136 / Illinois 336 and 7.4 miles of a new four-lane highway from north of Industry to Illinois 101 is programmed during FY 2006-2011 at a cost of \$3.5 million. Construction is not currently funded.
- **US 136/Illinois 336 - Quincy to Macomb Corridor.** New four-lane highway for 21.3 miles from US 24 near Quincy to 3 miles south of Carthage and 1.2 miles from County Highway 18 to Deere Road west of Macomb are open to traffic. The construction to provide five lanes from US 136 east of Township Road 266 to County Highway 18 is programmed in FY 2004 and is anticipated to be on a summer 2004 letting. The remaining work to finish the four-lane highway from 3 miles south of Carthage to US 136 east of Township Road 266 is fully funded. Land Acquisition, utility adjustments and construction on the remaining 25.2 miles from 3 miles south of Carthage to US 136 east of Township Road 266 west of Macomb are programmed during FY 2005-2011 at a cost of

\$129.9 million. Of this total, land acquisition for 1.7 miles east of Illinois 61 to US 136 east of Township Road 266 and construction of 5.0 miles of four-lane highway from 3 miles south to 2 miles east of Carthage are programmed in FY 2005 at a cost of \$20.5 million.

(Also see District 6 projects under US 136/Illinois 336)

- **Illinois 8 from the branch of Farm Creek tributary to Sunrise Avenue in East Peoria.** Construction of additional lanes, resurfacing and intersection improvements on 1.4 miles are programmed during FY 2006-2011 at a cost of \$10.6 million.
- **Illinois 29 from Spring Street to Spitznagle Avenue in Peoria.** Reconstruction for 1 mile and associated work are programmed during FY 2006-2008 at a cost of \$8.5 million.
- **Illinois 40 from Cedar Hills Drive to Illinois 6 in Peoria.** Construction of additional lanes, intersection improvement and resurfacing for 2.6 miles are programmed during FY 2005-2011 at a cost of \$21 million. Of this total, land acquisition is programmed in FY 2005 at a cost of \$2.1 million.
- **Macomb to Peoria Corridor Study (Illinois 336).** Engineering for location, design and environmental studies began in fall 2002. The continuation of this engineering is programmed during FY 2005-2011 at a cost of \$5 million. Of this total, \$2.5 million is programmed in FY 2005.
